# COLOR MIXING

## Mouse Paint

Ellen Stoll Walsh

*Color mixing is so much fun!*

*Teach your child about primary and secondary colors while getting "hands on" with paint.*

Detail of *Colour*, Gari Melchers

- So many wonderful books and resources on this topic are available. Here are a few of our favorites: Mouse Paint, Mix it Up, Monsters Love Colors, The Color Wheel, and Three Primary Colors.
- Can you find any secondary colors in Gari Melchers' painting 'Colour'?
- Finger painting is a sensory rich way to demonstrate how color mixing works. You don't even need paper! Add a few blobs of white paint to make lighter shades.
